PROFILE

Aspiring software engineer and UI/UX designer currently studying at Rwanda Coding Academy. Experienced in front-end development, full-stack applications, and building systems that solve real-world problems. Strong interest in combining engineering and design to create impactful digital products.

EDUCATION

Rwanda Coding Academy

Software Engineering, Embedded Systems & Cybersecurity

2023 – 2026

- Focus: software development, cybersecurity, embedded systems

FAWE Girls School

Sciences Track

2020 – 2023

EXPERIENCE

Software Engineering Intern (UI/UX & Frontend)

Cylacon — 2026

- Designed and developed user interfaces for web applications
- Built responsive and interactive front-end components
- Worked closely with developers to implement features
- Improved usability and user experience of existing systems

Student Developer — Academic Projects

Rwanda Coding Academy — 2023–2026

- Built multiple full-stack applications in a competitive environment
 - Worked on projects involving AI, data, and web systems
 - Collaborated with peers on technical and problem-solving tasks
-

PROJECTS

Nyumba — Property Marketplace Platform

React, TypeScript, Node.js

- Developed a housing platform focused on accessibility and affordability
- Implemented listing and user interaction systems

MedGate — Healthcare Platform

React, TypeScript, PostgreSQL

- Built a platform connecting patients to verified hospitals
- Focused on reliability and accessibility

Delish — Food Ordering Platform

Next.js, Tailwind CSS, Supabase

- Developed authentication and order management features

AI Job Screener

JavaScript, APIs

- Created a system to analyze CVs and assist recruitment processes
-

ACHIEVEMENTS

1st Place — Cyberlympics Rwanda

Africa Cyber Defence Forum — 2024

- National cybersecurity competition covering digital forensics and security

AI Project Presentation — Rwanda Space Agency Space Week

2024

- Presented AI-powered satellite monitoring system
-

TECHNICAL SKILLS

Programming: Java, Python, JavaScript, TypeScript

Frameworks: React, Next.js, Node.js, Flask, SpringBoot

Databases: PostgreSQL, MongoDB, MySQL

Tools & Technologies: Git, Docker, Kubernetes, Firebase, Supabase, Figma

LANGUAGES

Kinyarwanda — Native

English — Fluent

CERTIFICATIONS

- Cybersecurity Certification — Cyberium (2024)
- Kigali Hacks Finalist (2024)
- RCA Hackathon Participation (2024)
